

Lab - Learn to Submit: Instructions

[Help](#)

This lab is just a simple exercise to familiarize you with the Coursera system and to ensure that you know how to do a simple web submission.

To do this assignment, simply create a one-line text file with the name of your home country and nothing else. Make sure you are creating a real text file, not, for example a .rtf file

Then click on the submit button to select and upload that text file. Note that since this assignment is ungraded, it's maximum score is 0.
